## Career Objectives

---

To obtain a position that allows me to utilize my knowledge and passion for technology while gaining practical experience in a collaborative and innovative environment. I aim to further develop my web development skills and contribute meaningfully to real-world projects.

## Education

---

<b>Laguna University</b> , Sta. Cruz, Laguna	2021-2025
Bachelor of Science in Computer Science with Specialization in Data Science	
Dean's Lister	
<b>Laguna University</b> , Sta. Cruz, Laguna	2019-2021
Information and Communication Technology	
With Honors	

## Experience

---

<b>National Irrigation Administration Region-4A</b>	2025
Front-end Developer Intern	
Contributing to the development of a Learning Management System (LMS) by integrated JavaScript functionalities into frontend designs to enhance interactivity and improve user experience.	

## Projects

---

- Learning Management System for National Irrigation Administration Region-4A**

A web application designed to facilitate the management of learning resources and courses for the National Irrigation System. It includes features for course and training creation, user management, and progress tracking. My role involved developing the frontend using ReactJS and TypeScript, and integrating it with a Django backend.

- Financial Information System for National Irrigation Administration Region-4A**

A web application designed to manage financial data and transactions for the National Irrigation System. It includes features for budget tracking, expense management, financial reporting and predicting expenses for the next several months using Machine Learning. My role is focused on developing the frontend using ReactJS and some backend integration with NodeJS.

## Certifications

---

- JavaScript 1 (Cisco Networking Academy)
- JavaScript 2(Cisco Networking Academy)

## Skills

---

**Languages:** JavaScript, TypeScript, HTML5, CSS3, SQL

**Frameworks & Libraries:** React, Node.js, Express.js, Tailwind CSS,

**Databases:** Firebase Firestore, MongoDB, MySQL, PostgreSQL

**Tools & Platforms:** Git, GitHub, Vite, Postman, Visual Studio Code
